

## Online Branding Service - White Hat SEO

List2u.com has been offering B2B Internet marketing services since 1998 to select companies. Over the past decade, we have learned what works and what does not when it comes to having an effective online presence. We also know it does not have to cost you a fortune to Build Traffic to your website, as some Internet marketing companies would like you to believe. That is why we are now providing to all businesses the most cost effective B2B online Branding Service available.

List2u's Online Branding Service (White hat SEO), Also known as natural search engine optimization or organic search engine optimization, white hat SEO is the legitimate use of keyword-focused copy and tags, Crawler-friendly site architecture, Search Engine Submissions and a quality Back links network to improve a site's Position, Page Rank and Click-Through Rate. White hat SEO does not involve the use of Cloaking, Spam or any other Black Hat SEO techniques.
